SUMMARY

Web Systems Analyst and Developer
Experience in developing web pages, systems, and applications.

UNIVERSITY DEGREE

2012 a 2015 – (CC) Bachelor of Science in Computer Science.

2014 a 2016 – (ADS) Technologist in Systems Analysis and Development.

LANGUAGES

🇧🇷 Fluent Portuguese

🇺🇸 Technical English

EXPERIENCES (Last 4)

EBT INOVATION & PICPAY BANKING - BRAZIL.
Role: Senior Full Stack Engineer / Developer

Period: 02/2025 to 09/2025

Activity: Finalizing an Ongoing Project.

Contractor Agreement (Extended Term)

ARKAMA INTERMEIDAÇÕES - BRAZIL.
Role: Tech Lead & Sr. Full Stack Dev

Period: 12/2023 to 01/2025

Activity: New Project..

PJ Contract (Extended Term)

PERFECTPAY - BRAZIL.
Role: Sr. Backend Developer & Analyst

Period: 04/2023 to 12/2023

Activity: Systems Support.

PJ Contract (Fixed Term)

CENTERCOB / CREDLUZ - BRAZIL.
Role: Desenvolvedor Sênior Full Stack

Period: 11/2020 to 04/2023

Activity: New Projects.

Employment Contract (Indefinite Term)

TECHNOLOGIES

- Php 5.* / Php 7.* / Php 8.*
- Laravel Framework
- Laravel Filament
- Hyperf Framework
- Slim Framework
- Swoole - Assync ext php
- Composer - PHP Packages
- Microservices: REST, SOAP, JSON, XML
- Integrations: REST, SOAP, JSON, XML
- Database Oracle - PlSql
- Database Postgre SQL - PlSql
- Database Mysql / Maria DB - PlSql
- Database REDIS - Cache
- Database Firebird - PlSql
- Database Mongo DB/ NoSql
- Messaging Apache Kafka
- Docker Containers

ACTIVITIES

PHP - ACTIVITIES

Development: APIs, Back-End and Front-End with Vanilla PHP + HTML.

Experience : 12 years

FRAMEWORK LARAVEL - ACTIVITIES

Development: APIs, Back-End, and Front-End with Laravel.

Development: Front-End with jQuery, Blade Templates, HTML5, CSS3.

Experience : 8 years

FRAMEWORK HYPERF - ACTIVITIES

Development: High-Performance Microservices with Hyperf v2.*, v3.*

Experience: 6 Months

FRAMEWORK SLIM - ACTIVITIES

Development: Microservices, APIs, and Web Interfaces with Slim Framework

Experience : 1 year e 8 Months

DATABASES - ACTIVITIES

Development: SQL(s), Reports, Performance Customizations, Procedural Language for Databases.

Experience : 10 years

VERSIONING - ACTIVITIES

Development: Version Control with Git and iHub & GitLab Repositories

Experience : 8 years

TECHNOLOGIES

Html – Html5

Jquery

Javascript - ECMAScript

Css – Css3

Microsoft VS code

Version Control Git

Github Repository

Nginx Server

Apache Server

Client Postman / Insônia

Observability Sentry

Observability New Relic

Discord Communication

Google G-Suite Tools

Linux Environments

Windows Environments

Jira Software

ACTIVITIES

ENVIRONMENTS – CONTAINERIZATION

Development: VMware.
Experience: 3 years

Development: Docker and Containers.
Experience: 6 years

OBSERVABILITY – LOGS

Development: Sentry.
Experience: 1 year

Development: New Relic.
Experience: 6 Months

ENVIRONMENTS - ACTIVITIES

Development: Windows Environments.
Experience: 12 years

Development: linux Environments.
Experience: 9 years

SERVERS – ACTIVITIES

Development: Apache & Nginx Web Servers.

Experience: 10 years

PROJECT MANAGEMENT - ACTIVITIES

Development: Task Management with Jira, Deliverables, Predictability.

Experience: 8 years

SKILLS

- Efficiency in Programming Logic
- Analysis and Development of Complex Systems
- Pipelines CI/CD
- Unit and Automated Testing
- Test-Driven Development – TDD
- SOLID Principles
- Monolithic Architectures
- Layered Architectures MVC / DDD
- Design Patterns
- PSR – PSR 1, PSR 4, PSR 12
- SQL Injection, XSS, CSRF, RCE, Others
- Agile and Collaborative Development
- Integration Webhooks and Postbacks
- GITFLOW Workflows
- Clean Code Principles
- Code Review Best Practices
- Agile Methodology Scrum/Kanban

ACTIVITIES

LOGIC – ACTIVITIES

Development: Programming Logic.

Experience: 12 years

TESTING – ACTIVITIES

Development: Automated and Unit Testing.

Experience: 4 years

ARCHITECTURES – ACTIVITIES

Development: Monolithic Structures.

Experience: 6 years

Development: Layered Structures.

Experience: 8 years

SOURCE CODE – ACTIVITIES

Development: Security.

Experience: 12 years

Development: PSR, Code Review,

Microservices, Clean Code.

Experience: 8 years.

GUIDELINES – ACTIVITIES

Development: Feedback, Scrum, Kanban,

Customizable.

Experience: 8 years.

PROFESSIONAL ROLES

Tech Lead

Team Management and Agile Methodologies.

Technical leader with experience in managing and evolving technology teams, applying agile methodologies such as Scrum and Kanban to ensure efficient deliveries aligned with the business.

Focused on best development practices, including code quality, process review, and automated testing, as well as mentoring teams for continuous growth.

Expertise in sprint management, OKR definition, and fostering a collaborative and productive environment, with a focus on continuous improvement and innovation.

Front-End Developer

User Experience and Performance Specialist.

Frontend developer with experience in creating modern, responsive, and high-performance web interfaces. Focused on UX/UI, ensuring intuitive and enjoyable experiences for users.

Expertise in development with HTML5, CSS3, JavaScript, ECMAScript, and libraries such as jQuery, Bootstrap, Tailwind CSS, and other responsive design tools.

Skilled in creating responsive and functional layouts that adapt to different devices while maintaining visual consistency and fluid user interaction.

Back-End Developer

Backend Developer and Integration Specialist.

Web developer with experience in backend development, databases, and business logic, focused on e-commerce, payments, and financial transactions. Expertise in creating RESTful APIs, integrating with payment gateways and banks, and developing customized checkouts.

Advanced knowledge in Laravel, PHP, MySQL, and PostgreSQL, applying best practices in data modeling and ACID transactions. Skilled in integrating systems via APIs, webhooks, and messaging services.

Focused on code quality, security, and innovation, with experience in CI/CD, code versioning, and automated testing.

Database Developer

Database Specialist, Optimization, Modeling, and Integrations.

Professional with solid experience in data modeling, query optimization, and management of relational databases.

Expertise in MySQL, PostgreSQL, Oracle, Firebird, and other database technologies, applying best practices to ensure high performance, data integrity, and security.

Experience in complex SQL queries, creation and maintenance of procedures, functions, schemas, and views, optimizing performance and ensuring operational efficiency.

Skilled in indexing, normalization, and partitioning tables to ensure fast and scalable queries.

ABOUT ME

Profile...

Collaborative, Innovative, Communicative, Organized, Leader are some of the qualifications in my profile, which I am always willing to seek the best for the team and for the company

Training...

Bachelor's Degree in Computer Science from Faculdade SGM (Santa Maria da Glória).

Graduated as a Technologist in the course of Systems Analysis and Development at Faculdade FCV (Faculdade Cidade Verde).

Location...

Living in Maringá - Paraná - Brazil for 10 years, I came in search of academic training and personal learning.

In Search Of...

Seeking new opportunities, experiences and challenges in the area of information technology.

Future...

Perform a postgraduate degree in the area of Web Development in order to improve and acquire new knowledge.

PROFISSIONAL

Office...

Looking for work in a company looking for new technologies around the web, where you can share and acquire new knowledge.

Seeking out...

Looking for work in a company looking for new technologies around the web, where you can share and acquire new knowledge.

Availability...

Preferential: Home Office. Optional: Hybrid or face-to-face work to be arranged

Remuneration...

Remuneration: To be agreed.

Authorization for Personal Data Processing – LGPD

Personal Data Protection – LGPD (General Data Protection Law)

In accordance with Law No. 13,709/2018 (LGPD Brazil), all personal data must be processed in a transparent, secure, and responsible manner, ensuring the rights of the data subjects. The LGPD establishes that personal data can only be collected and used for specific and legitimate purposes, preventing their use for objectives other than those informed to the data subject.

The main rights guaranteed by the LGPD include access to personal data, correction of incomplete data, blocking or deletion of unnecessary or excessive data, portability of information, anonymization or deletion upon request, and the right to revoke consent for data processing at any time. The law also requires companies to adopt technical and administrative security measures to protect personal data against unauthorized access, leaks, and risky situations.

Data processing must occur in a lawful, transparent, and proportional manner, prioritizing data minimization and ensuring accountability and responsibility from companies that collect and process personal information. Additionally, the LGPD imposes obligations on how data is shared with third parties, emphasizing the need for clear contracts, privacy policies, and audit reports regarding the use of information.

Authorization for the Use of Personal Data:

I declare that the information contained in this résumé may be used by information technology (IT) companies, recruiters, and selection consultancies exclusively for the purposes of professional profile analysis, employment opportunities, and selection processes, in accordance with the LGPD.
